

LOPAREX

GLOBAL SUPPLIER OF RELEASE PAPERS AND FILMS

Loparex has positioned itself at the leading edge of technology and performance in the manufacture of release papers and films. What began nearly a century ago as a limited product shop has evolved into a worldwide organization with a broad array of release liner products serving numerous market segments.

Our full line of extrusion-coated and silicone-coated products has made Loparex an industry leader. Our focus on anticipating customer requirements, enhancing our capabilities through investments in technology, and continually improving our products has kept us at the top of the industry.

In today's marketplace, our customers require release liners made of many substrates and silicone formulations. Loparex offers a broad range of papers and films, ensuring compatibility with a variety of end uses. Our manufacturing capabilities include:

- Extrusion coating
- Silicone coating
- Blown films
- Printing, slitting and sheeting
- Specialized finishing and packaging options
- Pilot lab

At Loparex, our Marketing and Research & Development groups focus on worldwide trends to anticipate customer needs in a variety of markets. These experts provide solutions by applying experience in both materials science and process technology to develop new products to fulfill market needs.

Whatever your application, when you need a quality release liner, you need Loparex.

OUR PRODUCT LINE

POLY SLIK® polycoated release liners - wide range of substrates, extrusion coating and silicone coating combinations available

FILM PLUS® release liners - polycoated and silicone coated films

LOPASIL® release liners - direct coated krafts, glassines or clay-coated papers

PRIMELINER™ release liners - direct coated high, medium, and low density polyethylene films, polyester films, and biaxially-oriented polypropylene, available clear or colored

BLOWN FILMS - low density polyethylene, high density polyethylene, polypropylene, EVA and specialty films for siliconizing or packaging applications

GLOBAL MANUFACTURING AND SERVICE

Our manufacturing and service facilities are strategically located throughout the world to service customers on an international basis. The result is maximum operational efficiency and reduced new product development cycle time. All Loparex products can be delivered globally, at the best possible value to you.
